

birch *Standard*

birch *Glaze Finish*

Please Note: Due to the natural properties of wood and paint, opaque samples should be updated annually for accurate representation.

PLEASE NOTE:

WB denotes Water Based

P denotes Paint Finish.

All wood species can be stained with standard and glaze finishes. Other wood species or exotic are available upon request.

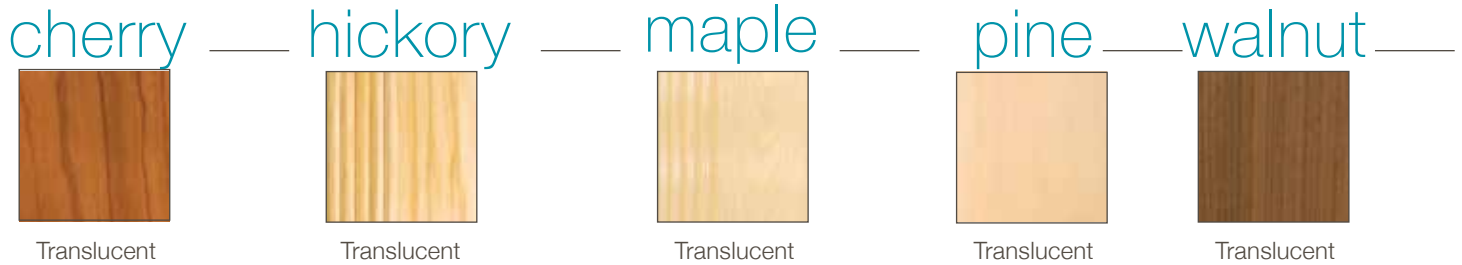

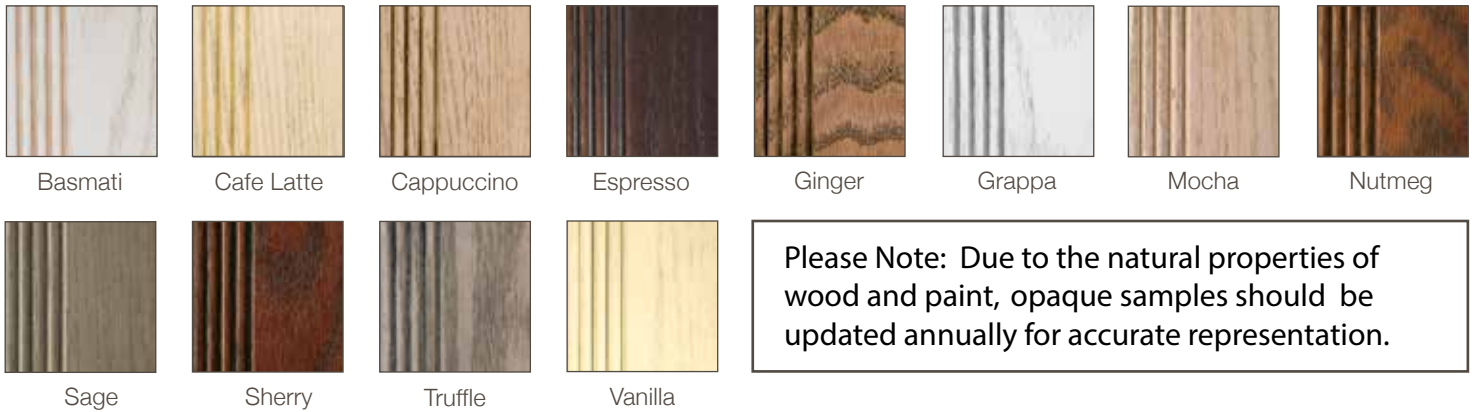

Nature creates but never duplicates. Hence two pieces of wood, even from the same tree, are never exactly alike. Due to the difference in natural colour and grain, each piece of wood will react differently to the finishing materials used. Therefore, you may notice a slight difference in colour between several pieces even in the same article. Mineral, sound knots and slight surface cracks are the true characteristics of quality solid wood products.

We recommend you see an actual stain sample before making your final selection.
